

CUSTOMIZED MACHINES SINCE 1958

BUSI AT A GLANCE

Since 1958 BUSI has been manufacturing **top quality** and **versatile** single-cylinder sock-knitting machines in Italy only.

BUSI supplies the main and prestigious hosiery factories producing cotton and wool stockings, socks and tights, for men and women as well as for children.

Styles - classic, patterned, sports, technical-sports, as well as **medical** with special solutions for graduated compression.

AN ITALIAN FAMILY

Three generations since 1958

PAST

Giovanni Busi, the founder, with his daughter Catina and his son Gianmario

PRESENT and FUTURE

Catina Busi with her nephews Leonardo and Francesco

BUSI WORLDWIDE

65 countries | *5 continents*

OUR PRODUCT RANGE

Three lines for any need

GOLD LINE

Superior machines for
first-class socks
(babies, children, adults)

MEDICAL LINE

Superior machines for
certified-compression
medical socks

CUSTOM LINE

Superior machines for
specific requirements

GOLD LINE

Superior sock-knitting machines for first- class socks

First- class socks for babies, children, women and men

MODEL	MAIN CHARACTERISTICS
BUSI IDEA	True rib socks with 5-colour pattern
BUSI IDEA TERRY	True rib socks with sandwich terry
BUSI J TERRY	True rib socks with sandwich and selected terry
BUSI 500	Heavy socks with true rib and sandwich terry
BUSI TWIN LAYER	True rib socks with sandwich and selected terry with inner pouch or pouches

GOLD LINE

Superior sock-knitting machines for first- class socks

Advantages vs. similar machines in the market

- ✓ Our dial needles system guarantees very high precision when knitting true rib, which is recognized as the most amazing true rib worldwide
- ✓ Fully automatic switch between terry and plain fabric, which means no mechanical setup needed (zero labour costs)
- ✓ No need to adjust the gauge and machine's centre periodically, which means zero labour costs
- ✓ High gauges with terry (selected terry for model J TERRY) and true rib
- ✓ No gap in the pattern when switching from welt to the leg during transfer phase
- ✓ Two layers sock with selected terry, true rib and 3 pattern colors (model TWIN LAYER)

MEDICAL LINE

Superior sock-knitting machines for certified-compression socks

Certified-compression medical socks in classes 1, 2, and 3

MODEL	MAIN CHARACTERISTICS
BUSI MEDICAL	True rib medical compression socks with 5-colour pattern
BUSI MEDICAL TERRY	True rib medical compression socks with colour pattern and sandwich terry

MEDICAL LINE

Superior sock-knitting machines for certified-compression socks

Advantages vs. similar machines in the market

- ✓ True rib
- ✓ Up to 5-colour pattern plus ground
- ✓ Can knit plating; competitors' machines cannot knit any type of plating
- ✓ Both sandwich terry and selected terry (for MEDICAL TERRY only)
- ✓ *Rimaglio 3.0* automatic stitch-by-stitch toe-closing device, up to gauge 26

CUSTOM LINE

Superior sock-knitting machines for real sophisticated socks

Our strength lies in customization, allowing us to create truly unique machines, tailor-made to your needs.

Rimaglio 3.0

Our toe-closing device

- ✓ *Rimaglio 3.0* can be applied onto all BUSI machines
- ✓ Up to gauge 26 npi
- ✓ Up to 400 needles
- ✓ Stitch-by-stitch automatic toe-closing
- ✓ 360 degrees seam (optional)

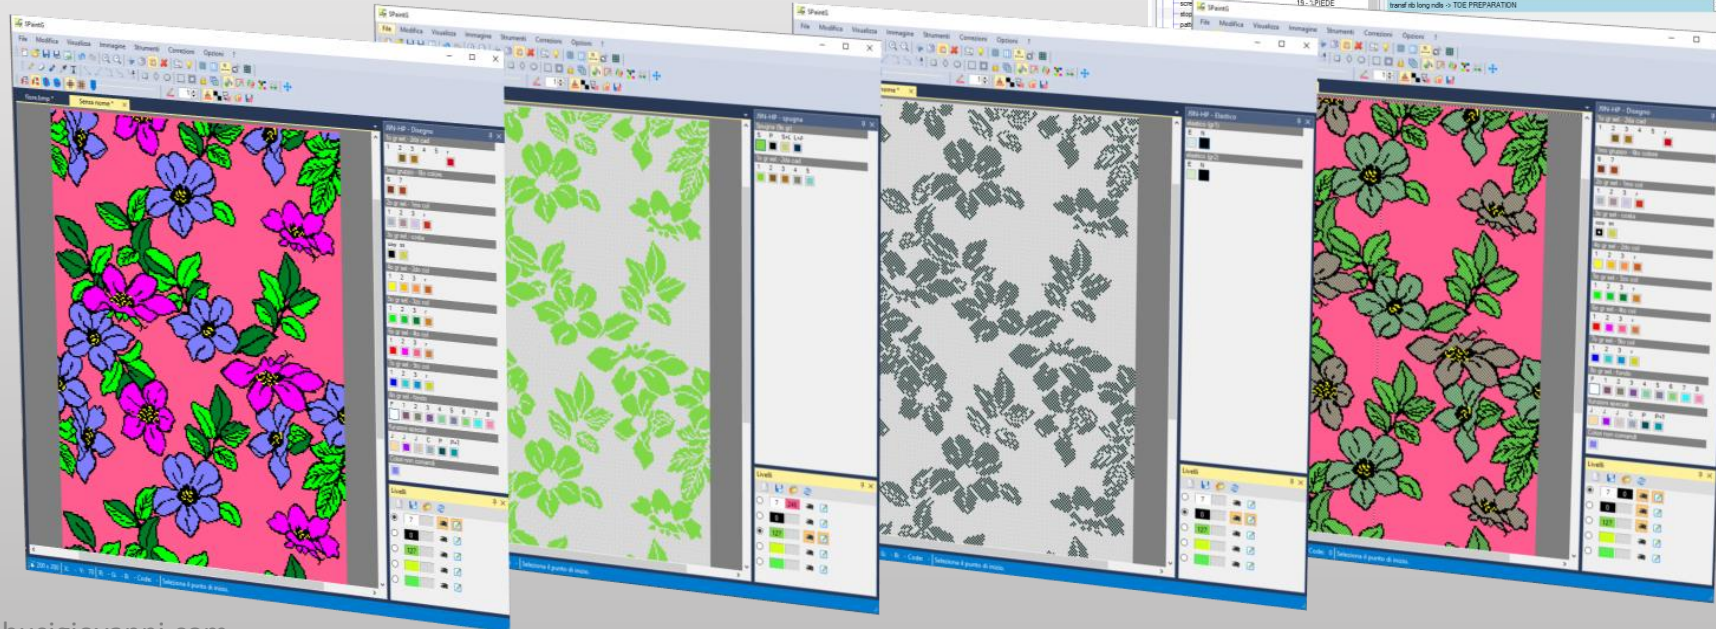

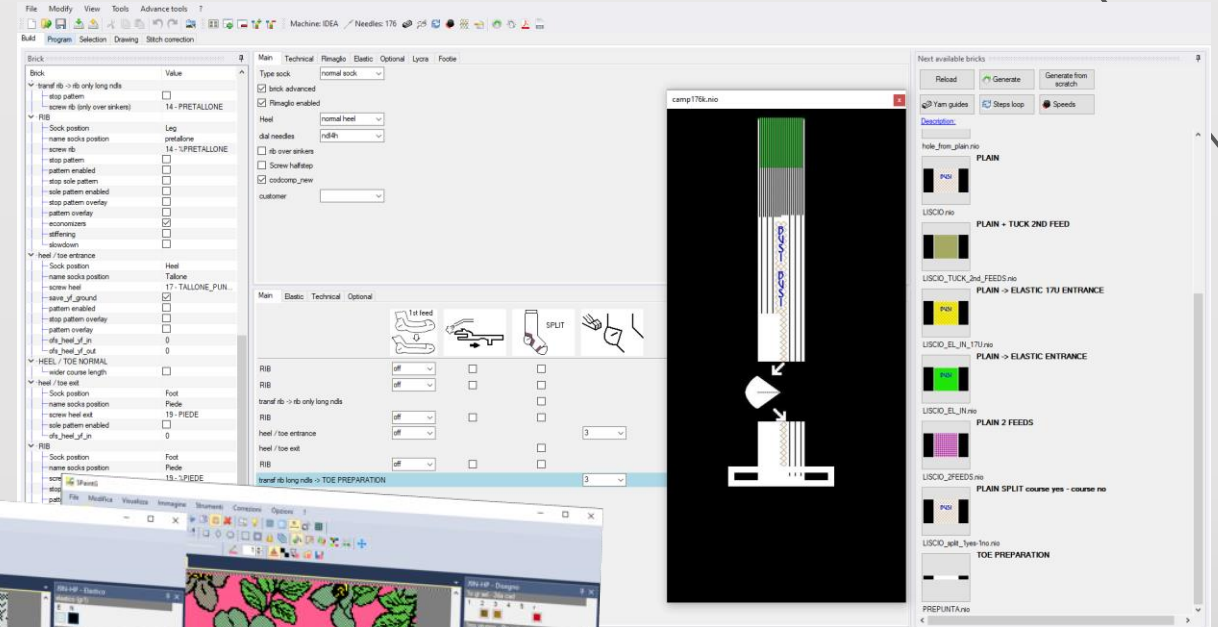

Our machines can produce other items besides socks

- ✓ Sleeves
- ✓ Wristband
- ✓ Scarves
- ✓ Mittens
- ✓ Muscle warmer
- ✓ Knee guard
- ✓ Beanies
- ✓ Ties

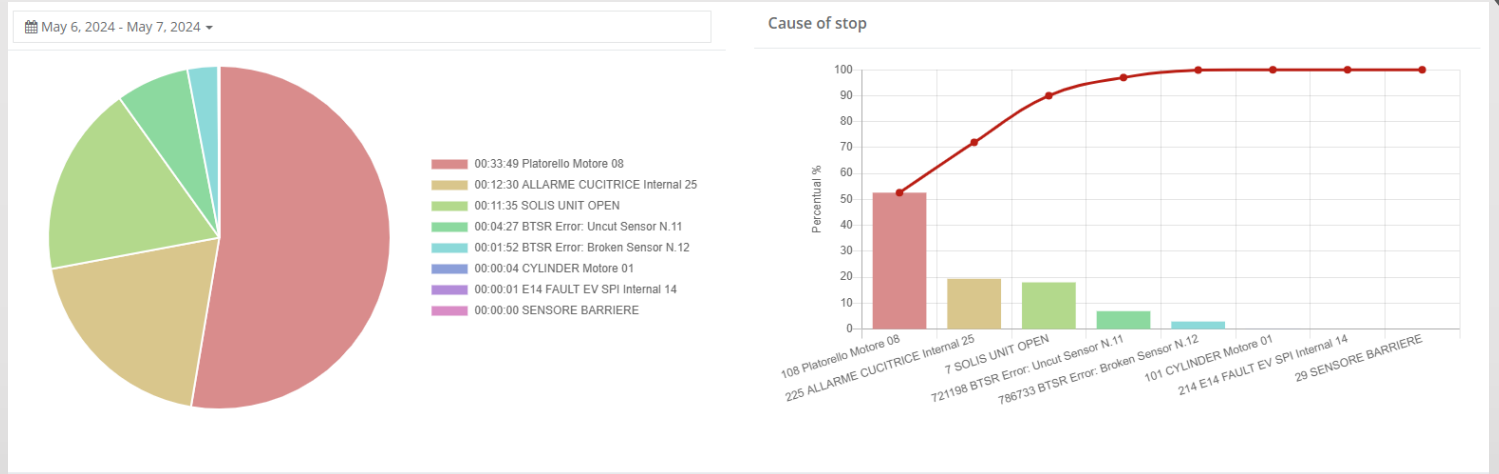

ART-GEN

Our user-friendly program helps you to create your socks

BUSI CONTROL TOWER

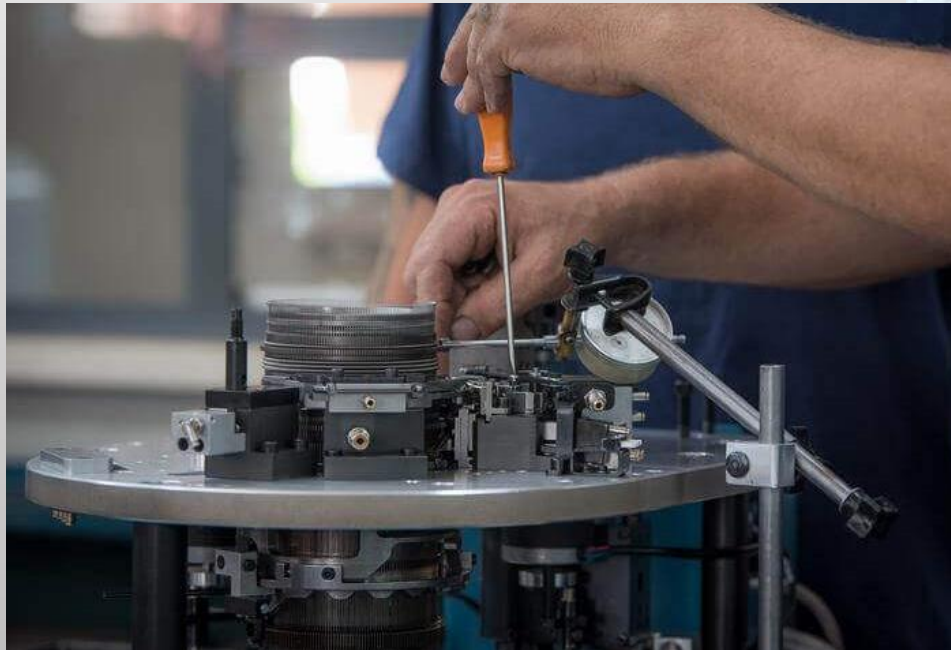

Monitoring and controlling
your BUSI machines in real
time, 24/7

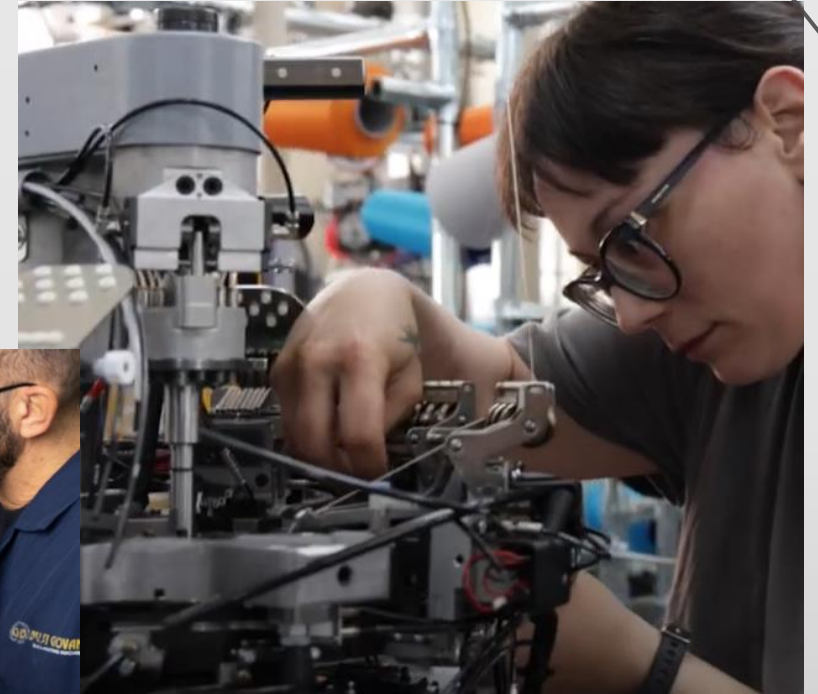

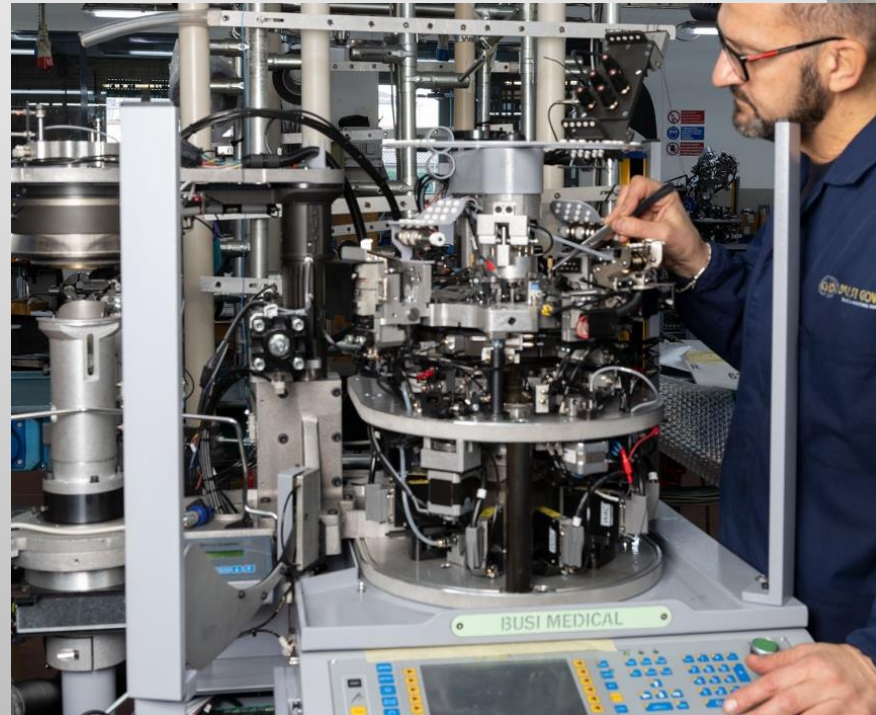

WHAT MAKES OUR MACHINES THE BEST

- ✓ Internal production of our own components with top quality raw materials, solid steel and aluminium alloys
- ✓ Accurate quality control of every part of the machine

- ✓ Ten days of testing in our factory for each machine.
- ✓ Customer's specific yarns are used during the testing to achieve a flawless setup.

OUR TECHNICAL TRAINING AND ON-SITE INSTALLATION

One full week of training is provided for our customers' technicians at BUSI plant, covering mechanics, electronics, and software to ensure full familiarity with our technologies.

We built a specific training room for your full-immersion training at our plant (Gianmario Busi Training Room)

Our **technicians** will take care of a flawless installation at customer's plant, also providing additional training to customer's engineers and operators.

Our final goal is that BUSI machines must run perfectly from the very first day onwards.

OVERVIEW

- ✓  100% designed  manufactured in Italy
- ✓ Customized machinery
- ✓ Real top quality
- ✓ Highest performances
- ✓ The highest variety of socks can be made
- ✓ Robust framework (no plastics)
- ✓ High reliability
- ✓ Longer-life
- ✓ Rare need of technical assistance
- ✓ Lowest consumption of spare parts
